MEDICAL ALERT

Waterproof, sealed cases, pendant or wristband styles.
maintenance free, no batteries to replace,
long range – typically over 100 metres,
simple operation

5 step process of how the systems works.

-  1. You have peace of mind knowing that at just the press of a button help will be there.
 -  2. At the press of a button, the Personal Emergency transmitter sends a radio signal to the main unit.
 -  3. The main unit calls the Monitoring Station automatically
 -  4. Monitoring Station is active 24hrs per day and respond to calls immediately
 -  5. Calling site, Ambulance, Police or relative depending on client's instructions.
-  Peace of mind for Client and Family
